

# ROLLY TASKER SAILS

## INTERNATIONAL SAILMAKERS

Rolly Tasker Sails is proud to introduce a new Lite Skin® range of fabrics suited for crosscut sail assembly. Crosscut sails have less seams, reduced fabric waste and a traditional appearance. The addition of Dimension-Polyant Lite Skin® outer layers protects the film, reduces film shrink over time, offers less water absorption than a traditional taffeta and provides increased chafe protection from film only laminates. The external layer is coated with UVt®, DP's proprietary UV and anti-microbial finish to increase UV protection while deterring mildew growth. The Lite and Medium weights are 100% polyester and the Heavy version steps up to a aramid scrim for reduced material stretch.

STYLE	WEIGHT	WARP/FILL		X-PLY®	WIDTH
Crosscut	Sm-oz	Count	Fiber Type	Polyester	mm
CCLS - L	5.2	10 x 8.5	500 x 500 Polyester	30° 840D	1500
CCLS - M	5.8	6 x 7	1000 x 1000 Polyester	30° 840D	1500
CCLS - H	6.7	7 x 7	1000 x 1000 Aramid	30° 840D	1370
